1.0 Introduction

Maps for an ecological data search for Example and surrounding land to a 1km radius on behalf of A contractor.

The following maps are part of a report compiled by Greenspace Information for Greater London CIC (GiGL) on behalf of A contractor, to provide ecological information for the above site. This section may include maps of

- Statutory Sites
- SINC
- pSINC
- RIGS or LIGS
- River Restoration Opportunities
- Habitat Survey Parcels
- Open Space
- Metropolitan Open Land and Green Belt
- Important Invertebrate Areas (IIAs)
- B-Lines

The boundaries of this search area are defined in these maps and lie within the London Borough(s) of Barking & Dagenham and Havering.

For a compilation of planning documents for each Local Planning Authority in London, please visit our [website](#).

Important information about these maps

The data provided within this report are for the **internal** use of Marmalade Incorporated (which includes the client where applicable) to inform understanding of the site of interest for **1 year** in accordance with the terms and conditions agreed to on request of the search.

The data and maps provided must not be distributed or published for an external or public audience, for example within the appendix of a report. Local Planning Authorities may request a copy of the data from GiGL either via their Service Level Agreement (most boroughs are GiGL partners) or as a data search.

The maps are compiled using data held by GiGL at the time of the request. GiGL takes the accuracy of our data holdings very seriously and the GiGL Advisory Panel is set up to help with this important task to ensure what we provide to you is the best data possible for your needs.

GiGL is constantly striving to improve the coverage and currency of its data holdings. We would be interested in hearing from you if you are able to submit species or habitat data arising from field surveys.

Statutory Site Designations
